

Modern Equipment Company, Inc.

Jet Melter Service

Modern is pleased to offer the following services to assist your foundry:

Gas consumption/prices sky-high?

Experiencing low melt rates?

New furnace operators?

Automation Problems?

Let Modern's experienced service staff solve all your furnace operation problems !!!!

A service trip can include any or all of the following:

- **Emission Testing – Will check CO and NOX**
- **Burner Adjustment – Restore Melt Rate / Reduce Dross Buildup**
- **Operator Training – Proper Cleaning Techniques and Furnace Operation**
- **PM Inspection Packages – Reduce Nuisance Downtimes**
- **Equipment Inspection – Get your Furnace Back to Original Specifications**
- **Automation Adjustments – Assure Safe Operations**
